

To the peoples of Maerimydra, and their most esteemed leadership.

As ye may know, twas we of the Five Factions who came to your aide against the Fire Giants, and the Demon Lord Grazz't. In defeating the Fiend of Lies, and his giant supporters, we hoped we might form common bond with the Drow of the Moonsea. We Who Harp request parlay, and seek to form stronger bonds with your people in this time. As you may or may not be aware, the Thayian Wizards have been establishing a foothold within the surface city of Mulmaster.

The Red Wizards pose a serious threat to the stability and security of the entire Moonsea, including your own subterranean realms. I, Malkyn Fenris was at the Battle of Maerimydra meself, and wish to formerly request any aid ye might provide the Harpers in our own time of need. We be seeking alliance with the Emerald Enclave at this time to rid the Moonsea of the Red Wizards and their ilk, and are requesting aid from the people's of the Moonsea.

Know that ye be in our debt for helping retake your city from those who would despoil it, and that were it not for We Harpers, and our allies, ye may still be refugees in the hostile lands surrounding Hillsfar. I wish to formerly state that it was me own pleasure for helping rid ye fair city of the Giants and their Demon Lord, and that I wish this attempt to formalize an alliance was not during dire times, but that it was during a period of peace. Alas, such is not the case, yet still We who Harp seek to form alliance with the people's of Maerimydra, with no deception of our intent.

May this message find ye swiftly, and ye be receptive to our requests.

Sincerely,

Malkyn Fenris

Archmage of Phlan, and High Harper of the Moonsea.
